

Abacus IT Solutions Expands Portfolio with Global Software, Inc.'s Microsoft® Excel-based Automation Tools

RALEIGH, NC (April 29, 2008) – Global Software, Inc., the number one provider of Microsoft Excel-based automation and analysis tools to the leading enterprise resource planning (ERP) platforms, announces a certified partnership with Alabama-based Abacus IT Solutions. Abacus will now offer Spreadsheet Server for use with MAS 90®, MAS 200® and Microsoft Dynamics GP, as well as Budget Manager and Executive DASH™ as strategic elements in their overall application portfolio.

The partnership allows Abacus' clients to retrieve 'live' data from the Excel environment. Powered by Global Software's Excel-based automation technology, the product suite affords end users the opportunity to leverage the familiarity of Excel as a reporting and analysis tool for secure, dynamic and timely data.

"There's a tremendous amount of demand in any business to automate spreadsheets," stated Spencer Kupferman, Vice President, Corporate Affairs and Company Spokesman for Global Software, Inc. "With the launch of this product suite, Abacus will be able to draw on Global's spreadsheet automation technology and significantly enhance their clients' ERP experience."

"Global's spreadsheet automation technology is utilized by some of the biggest names in the business," added Greg Hardy, Senior Manager for Abacus. "We are thrilled to integrate this popular technology platform into our overall client offerings."

About Abacus

At Abacus IT Solutions, we focus with a laser-like precision on what we can do to help your business succeed. For 21st century companies, having the correct IT components - like hardware, software, networking and telephones - go a long way toward ensuring that success.
