

## HOWARD COUNTY, MARYLAND SELECTS GLOBAL SOFTWARE, INC.'S SPREADSHEET SERVER FOR USE WITH SAP®

RALEIGH, NC (February 2, 2010)- Global Software, Inc., the number one provider of Microsoft® Excel-based automation and analysis tools to the leading enterprise resource planning (ERP) platforms, announces today that Howard County, headquartered in Ellicott City, MD, has selected Spreadsheet Server for use with SAP® to automate their financial analysis capabilities in Microsoft® Excel. In addition, Howard County will leverage the Distribution Manager utility, which empowers users to automate the delivery of key business information.

Howard County is a county of contrasts.....a successful melding of old and new, urban and rural, where the rolling green hills of the Piedmont meet the rocky fall line of the glaciers. From the small town flavor of historic mill towns to the thriving model city of Columbia, Howard County makes everyone feel at home. Conveniently located in the heart of central Maryland between Baltimore and Washington, Howard County offers the charm of a historic past mixed with the excitement of a cosmopolitan community.

Many consider Howard County to be one of the most affluent and educated communities in the nation. The quality of life is highly prized and fiercely protected by active citizens who take pride in their neighborhoods. With schools that are top-notch, a local government that is responsive, and a thriving arts community, it's no wonder families as well as businesses are choosing to settle there.
