

Oreck Corporation Chooses Global Software's Spreadsheet Server and Executive Dash™ for use with ASSISTCommerce Suite™ ERP

RALEIGH, NC (January 18, 2010)- Global Software, Inc., the number one provider of Microsoft® Excel-based automation and analysis tools to the leading enterprise resource planning (ERP) platforms, announces today that Oreck Corporation, headquartered in Cookeville, TN, has selected Spreadsheet Server and Executive Dash™ to automate their Microsoft® Excel environment throughout the enterprise. In addition, Oreck will leverage the Distribution Manager utility, which empowers users to automate the delivery of key business information. Global worked strategically with Assist Cornerstone, a member of Global Software's worldwide partner network, to provide their Spreadsheet Automation Solutions to Oreck to.

David Oreck founded the Oreck Corporation in the United States in 1963. The company's principal manufacturing facilities are in Cookeville, TN.

Oreck Corporation began as a company manufacturing upright vacuum cleaners for the hotel industry in the U.S. The concept was to design a lightweight yet powerful and durable vacuum that hotel housekeepers would prefer to the very heavy models available to them. The idea proved so successful that now over 50,000 hotels throughout the world use Oreck vacuums. After a short time, hotel personnel asked to buy the machines for their own use, which gave the Oreck Corporation the idea to sell its unique products to the general public.

Oreck now sells throughout North America and South America, as well as in Europe and Asia. It has the reputation of being the manufacturer of the very finest cleaning equipment available anywhere. It concentrates on lightweight cleaning machines of every style, each model having exceptional durability and ease of handling. An example of its success is that the only vacuum cleaners sold by the American Express Company are Orecks.

Oreck has experienced double-digit growth for the past several years and is now a major manufacturer in the cleaning industry. For more information, visit: www.oreck.com.
